

INTRODUCING...

FlueKeeper™

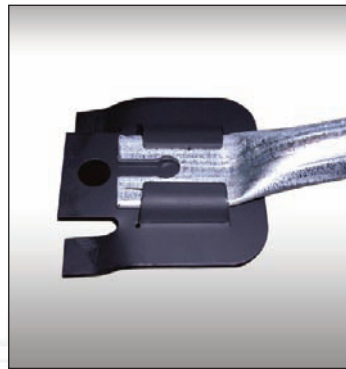

**A simple, cost effective product
to keep record storage boxes out of
rack transverse flue spaces**

*Provides 3" clearance between
rack and boxes*

*Easy for maintenance personnel
to install... requires no special
tools or skills*

NEW FlueKeeper from DACS -Patent Pending-

*Boltless Rear Leg Adapter makes installation possible
without removing any boxes.*

- **Allows your sprinkler system to function as designed**
- **Combined with 3" rack post width totals 6" flue space**
- **Reduces staff "housekeeping" duties**
- **Satisfies local building inspector criteria**
- **Available for new installations or scheduled monthly retrofit plans**
